

As a paying subscriber, I chose to benefit from listening to XM Satellite Radio and its traffic and weather channels. I love my satellite radio because it provides variety and quality that are not available elsewhere. The National Association of Broadcasters are not standing up to consumers' best interest and therefore should not dictate what consumers are permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
